

Proleveling Wedge System

ADVANTAGES

Complies with the legislation:
Thanks to the join of the stems directly on the base, after the removal there are no components between the joints;

Ergonomic wedge:
The concave part of the wedge allows greater ease in insertion;

Easier to insert:
Improved base with the new eye shape that ensures better and more effective insertion under the tile;

PROLEVELING WEDGE SYSTEM

Leveling system for tiles composed of 3 elements: wedge, leveler and plier. The levelers are available for grout lines of 1/1.5/2 and 3 mm and are suitable for tiles with thickness from 3 to 12 mm and from 12 to 20 mm. The wedge, with a length of 90 mm and a width of 22 mm, is inserted during the laying inside the leveler and thanks to the plier we get a complete flatness between adjacent tiles. When the adhesive is hardened, kick the wedges and the protruding part of the levelers along the grout line.

Levelers H 3-12 mm

Levelers H 12-20 mm
